

LIST OF DRUGS REQUIRING PRIOR AUTHORIZATION

The F54-859 form, available on our website ia.ca, must be duly completed by your physician.

All strengths and generics of the listed drugs are subject to prior authorization.

The prior authorization list is subject to change and does not guarantee that a drug which is listed is covered under a specific group plan. To see all details related to the coverage of your prescription drugs, you can use our WebRx® online drug tool available in My Client Space and iA Mobile.

Drugs labeled « **QC only** » are drugs which are not covered outside of Quebec, and which are covered in Quebec only if the prior authorization is granted. Drugs labeled « **ESC Pharm.** », if approved in the prior authorization process, will be reimbursed according to the price offered at the Express Scripts Canada Pharmacy which offers competitive prices for these drugs (applicable outside of Quebec only).

If you have any questions about this list of prior authorization drugs or the prior authorization process, please contact our Client Service Department at 1 877 422-6487.
