) Book value	\$52.29	\$48.73

Net Income Attributed to Common Shareholders

Solvency Ratio

(% and at end of period)

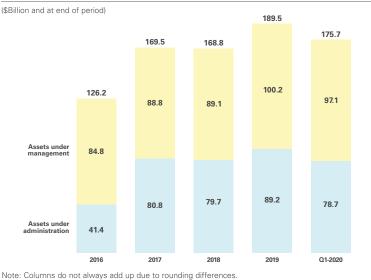

"In a quarter marked by the COVID-19 pandemic, the Company demonstrated its solidity and resilience. Amid considerable market turmoil, we managed to maintain our financial strength and the excellent quality of our investment portfolio. We also maintained business continuity thanks to our digital technologies, which are particularly appreciated in our distribution networks."

"I want to highlight the strong sales in our business lines, as seen in the 19% increase in premiums and deposits year over year. Sales were especially strong for segregated funds, and in Individual Insurance in both Canada and the U.S. where they were up 10% and 53%, respectively. Over the coming months, we will continue to take steps to preserve the Company's long-term financial strength and position ourselves to successfully execute our growth strategy in the best interest of our clients and shareholders."

Denis Ricard, President and CEO of iA Financial Group

Assets Under Management & Administration
